Glide Path rEVolution

MAXIMUM PRECISION

Thanks to its fine tip for accurate canal access and shaping.

CONTROLLED, UNIFORM SHAPING

3% constant taper allows for predictable and efficient canal preparation.

EFFORTLESS INSERTION

Control Memory technology provides greater flexibility and perfect adaptation to complex anatomies.

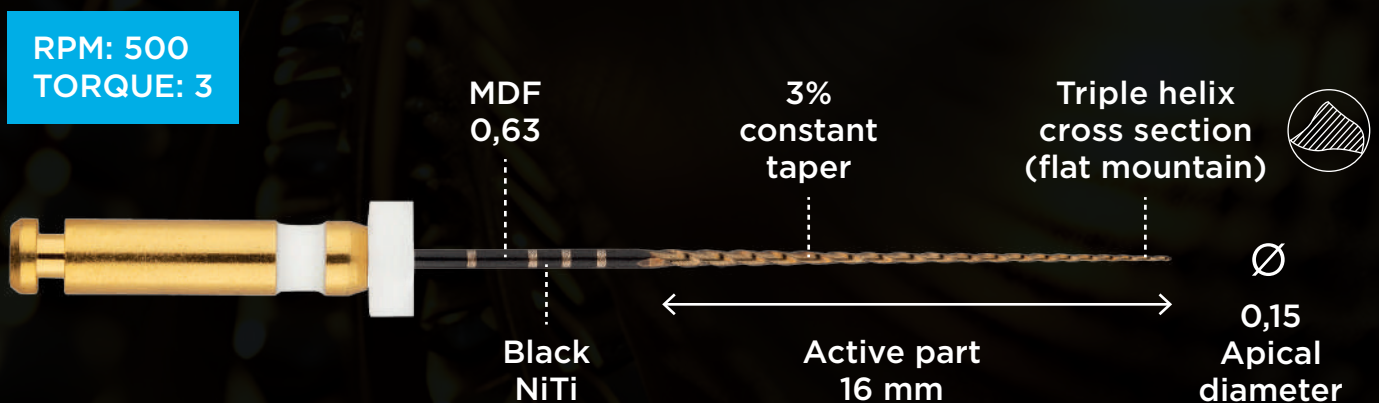

UNMATCHED FRACTURE RESISTANCE

Designed for maximum safety, even in curved or narrow canals.

TOTAL CLINICAL CONFIDENCE

Engineered to deliver reliability and peace of mind in every procedure.
